

# Hackathon held at NITK

TIMES NEWS NETWORK

**Mangaluru:** Hackverse 4.0, a 24-hour national-level hackathon organised by the National Institute of Technology Karnataka, Surathkal, got underway on Saturday. A total of 150 participants from various NITs, IITs, universities and engineering colleges are participating in the event. The event was inaugurated by Anup Pai, co-founder and CEO, eSamudaay. In his speech, he emphasised the importance of innovation and creativity in the present world. He also spoke about his journey as an entrepreneur and how he used innovation to solve real-world problems. "The hackathon aims to bring together talented and creative individuals who are passionate about technology and innovation," he added.

Rajveer Singh, the lead organizer of the event, told TOI that teams worked to develop software solutions for various challenges in different domains, such as commerce, education, healthcare and environment.
