

IN BRIEF

NIT-K to organise workshop on March 31

The National Institute of Technology - Karnataka (NIT-K), Surathkal will organise a workshop on 'enhancing disaster management capabilities through amateur radio communication' on Sunday. It is open to disaster management professionals, ham radio enthusiasts, and community leaders. It aims to empower communities with the power of HAM radio technology for a more resilient future. The workshop will begin at the Centre for System Design at 9.45 a.m., a release said.
